

Huy Nguyen

IT & Automation Specialist · Seattle, WA hiiamhuy@uw.edu · github.com/hiiamhuy

Summary

IT and automation specialist with ~10 years at UW-IT across Tier-1 support, web publishing, and service operations. Builds AI/automation tooling — speech-to-text pipelines, local LLM workflows, and integrations that remove repetitive work. ITIL 4 Foundations certified.

Experience

Senior Computer Specialist — UW-IT Service Center (2019 – Present)

- Manage incidents to restore normal service operations quickly, minimizing impact. - Author reference and FAQ articles for the Service Center knowledge base. - Designed and programmed ServiceNow forms and efficiency shortcuts. - Trained students in ServiceNow, email, web hosting, and account services.

Senior Computer Specialist, User Consulting Support — UW-IT

([dates]) - Managed web publishing for sites.uw.edu, Pantheon, and UW Shared Web Publishing. - Provided platform support and authored internal best-practice documentation.

Identity & Access Management Student Lead — UW-IT Service

Center (2014 – 2018) - Approved non-standard account requests; maintained the Person Registry for all UW affiliations. - Developed scripts for batch account creation; trained student consultants.

Student IT Consultant — UW-IT Service Center (2013 – 2015)

- Provided Tier-1 support; handled 50+ daily calls/emails for email, web, account, and network issues. - Student lead for Unix/Mailman list management and pager/teleconferencing operations.

Earlier: Web Intern, OCA-Greater Seattle (2015) · Digital Connector, Cisco (2010–2011).

Projects

- **Call Center QA — Transcription & Analysis** — WhisperX speech-to-text + speaker diarization and Ollama (Llama 3.2) rubric scoring on UW Hyak (SLURM/GPU). Python, Docker.
- **MRBS → TRMNL E-Ink Integration** — FastAPI service pushing classroom schedules to e-ink displays via webhooks + scheduler. SQLAlchemy, MySQL, Docker.
- **Pantheon Storage Analysis** — Bash tool with platform auto-detection (WordPress/Drupal) and multi-format export.

- **QuickBooks + OCR automation** — n8n workflow for receipt OCR and automated bookkeeping entries.
- **OpenWeb UI call-center assistant** — offline RAG assistant with Ollama, Docker, and Tailscale.
